## **ABOUT US**

Timeless and comfortable designs supplemented with an extensive essential package where quality and sustainability always take center stage. That's The Clothed.

In a time where fast fashion and overconsumption prevail, we looked for a counterbalance: Sustainable, premium quality and less waste through longer wearing pleasure.

## **SIMPLIFY WITHOUT LOSING QUALITY**

The new generation of women is looking for items that are timeless, functional and comfortable. 'They are all-time favorites' and that is exactly what we focus on: clothing of the best quality. By extensively testing our styles, by laboratories and consumers, we are convinced that we deliver premium quality. Nevertheless, we continue to monitor and make adjustments where necessary.

## **SUSTAINABILITY**

In the name of love for fashion and our planet. Better for people and the environment is high on our agenda. Our clothing is produced with care and as honestly and transparently as possible. We only work with manufacturers where the correct working conditions are applied. We go further than the applicable environmental requirements: We only use natural materials, our certified merino is eco-friendly and as few chemicals as possible are used in the washing process.

*Discover the collection of The Clothed premium basics in which style. Comfort and timeless allure come together.*
